Kitchen electrical lift mechanisms

Cabinet lift

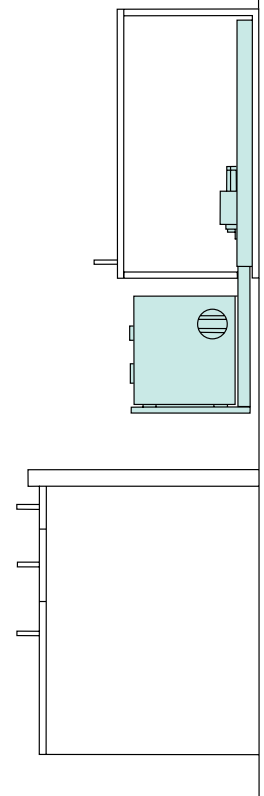

01

Make your everyday life easier and more comfortable. The kitchen lift is perfect for raising and lowering an entire cabinet or the cabinet interior up and down. Move ovens, microwaves, touch screens and shelves in order to place them out of sight or within easy reach for improved accessibility.

The operation is easily achieved by remote control. The compact design of this lift allows it to fit most standard kitchen cabinets.

Easy to install with “plug and play” connections and components are conveniently packaged in one carton.

Operation	Stroke	Build in height	Article no.	Price*
Control switch RF remote system	460	645	421.68.421	\$ 480.00

Note:
See full specification on pages 14 - 15

Kitchen electrical lift mechanisms

TV lift

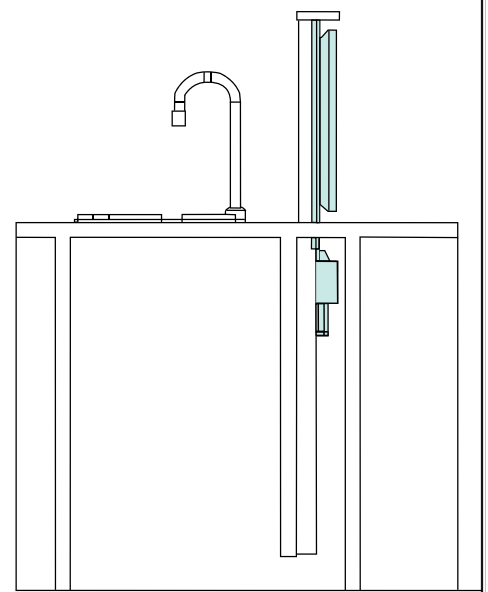

01

Let family and guest watch TV while you're cooking dinner or entertaining. Then simply lower the TV when you're finished to gain more space on your kitchen table or island. Imagine always having your favourite recipes on hand or cook along with your favourite cooking show as you watch your beautifully mounted TV lift display.

Only your imagination sets the limit of how to gain flexibility in your kitchen with our TV lift. Whether mounting a touch screen computer or TV screen it is there when you need it and gone from sight with just the touch of a remote control.

The lifts can be used to rise up from a surface or can be inverted to drop down from an enclosure such as an upper cabinet or ceiling. All lifts are available with VESA standard TV brackets.

Operation	Stroke	Build in height	Article no.	Price*
Control switch	460	645	421.68.421	\$ 480.00
RF remote	750	865	421.68.420	\$ 1,200.00
system	1000	750	421.68.423	\$ 1,700.00

Note:

Living room electrical lift mechanisms

Cabinet lift

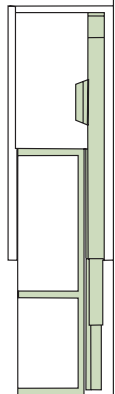

02

This application is very similar to the kitchen cabinet lift. Enjoy the convenience of lowering your bar, book shelves, safe and more.

Store away installed accessories that don't compliment your room design, while still keeping them accessible.

Like the kitchen cabinet lift, it can be turned upside down for unlimited applications and its simple installation brings your designs to life.

Operation	Stroke	Build in height	Article no.	Price*
Control switch RF remote system	460	645	421.68.421	\$ 480.00

Note:
See full specification on pages 14 - 15

Living room electrical lift mechanisms

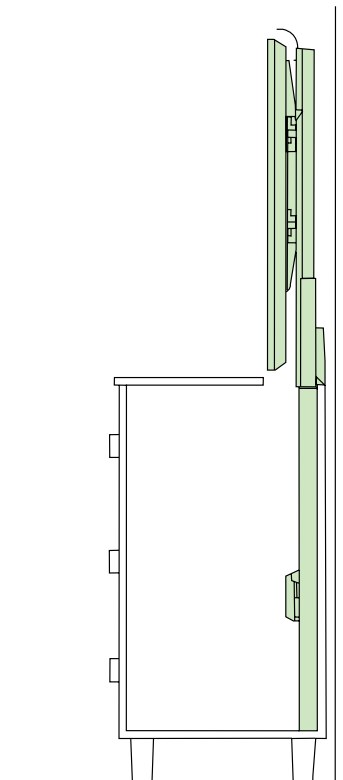

TV lift

02

The living room TV lift is already a popular application in many homes, offices, boats, RV's and hotel rooms around the world. With one touch of the your flatscreen TV appears from inside your entertainment cabinet or from the wall behind your favourite piece of art work.

You can mount the TV lift directly on the wall and hide the TV behind a sofa or cabinet. When you're away you can hide the TV to secure it against theft or simply conceal it when you want to minimise TV viewing in your household. It's the perfect solution for not allowing the TV to dominate your living space.

We reserve the rights to alter specifications without notice and prices are subject to change without prior notice.

Operation	Stroke	Build in height	Article no.	Price*
Control switch	750	865	421.68.420	\$ 1,200.00
RF remote system	1000	750	421.68.423	\$ 1,700.00

A Note:
See full specification on pages 14 - 15

Living room electrical lift mechanisms

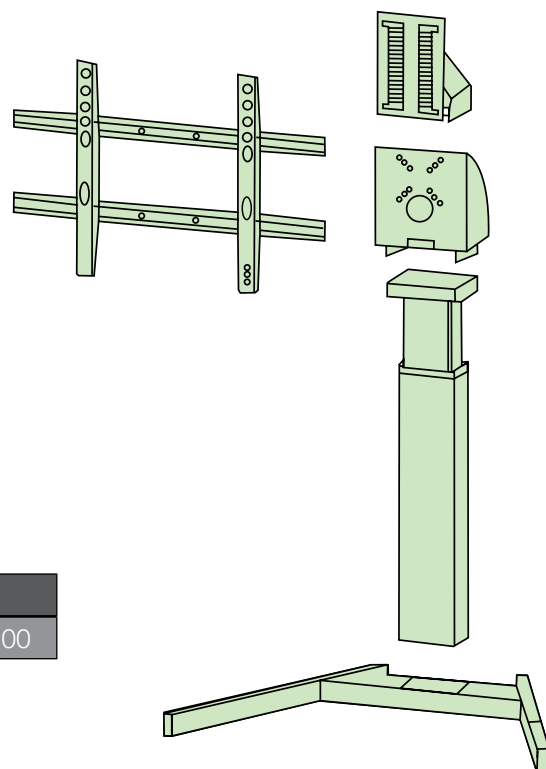

TV swivel and lift

02

The full motion remote control TV swivel and lift is a unique addition to our line. Height adjustable, it electronically rotates 45 degrees in both directions. You have the flexibility to install into a cabinet or free-standing when using the base. It's a dynamic and elegant way to display your HD TV or other flat screen displays. In addition to its electronic swivel capability it is also suitable for use with castors making it a versatile choice for home or office environments.

With one remote control you can operate both up/down and swivel. Full motion at the touch of a button; the TV swivel and lift is not your everyday TV stand.

Swivel	Min. height	Max. height	Article no.	Price*
+/- 45°	750	1750	421.68.482	\$ 1,900.00

Note:
See full specification on pages 14 - 15

Living room electrical lift mechanisms

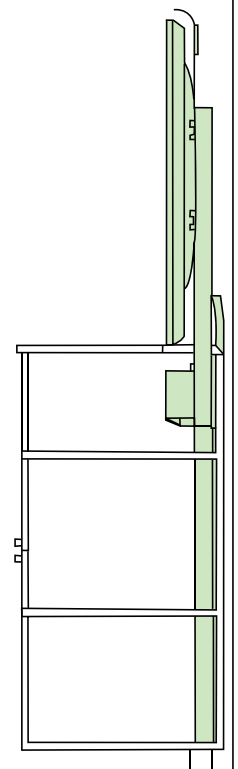

Traditional TV lift

02

The traditional TV lift is already a well known application in many homes and offices. The TV can be mounted inside a joinery unit or can be directly mounted on the wall and hidden behind the sofa.

The traditional TV lifts include RF remote and VESA TV brackets.

Operation	Stroke	Build in height	Article no.	Price*
Control switch	750	865	421.68.420	\$ 1,200.00
RF remote system	1000	750	421.68.423	\$1,700.00

Note:

Bedroom electrical lift mechanisms

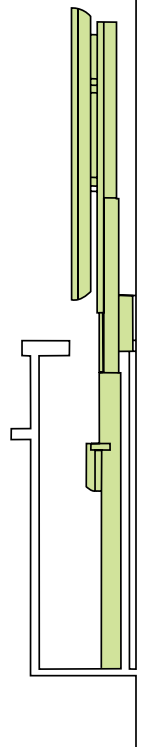

TV lift

03

The bedroom TV lift application is very similar to the living room TV lift. By one touch of the remote you can control the up/down operation from your bed. This way your bedroom can remain without distractions and electronics that compete with your design layout.

The TV lifts can be turned upside down to allow it to come down from the ceiling or hide behind a picture or a wall mounted cabinet.

Operation	Stroke	Build in height	Article no.	Price*
Control switch RF remote system	460	645	421.68.421	\$ 480.00
	750	865	421.68.420	\$ 1,200.00
	1000	750	421.68.423	\$1,700.00

Note:
See full specification on pages 14 - 15

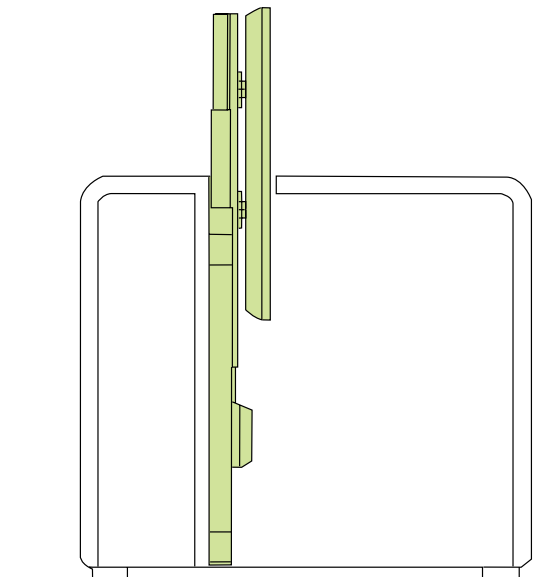

Bedroom electrical lift mechanisms

Bed-end TV lift

Imagine your beautiful bedroom with a TV moving elegantly up and out of the foot board or a specially designed end of the bed cabinet. Relaxing in your bed you can now watch TV and conceal it when you're done. When hidden it's out of reach and protected from children and pets.

We reserve the rights to alter specifications without notice and prices are subject to change without prior notice.

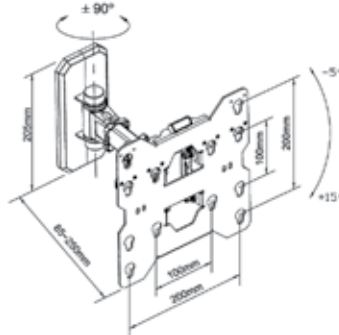

Operation	Stroke	Build in height	Article no.	Price*
Control switch	460	645	421.68.421	\$ 480.00
