

Twin corner

The Twin corner allows for optimal use of storage in a corner cabinet. Easy access: a dual movement swings both shelves equally within grasp of the user.

The railing of the wood shelves is available in chrome or RAL 9006.

Available for body widths 900 mm and 1000 mm.

2/4 System

All racks with plastic bearings and smooth-running characteristics.

Available tray diameters 650, 700, 750 or 850 mm.

The centre of rotation of the base is an aluminum vertical pipe, which is arrested by a clipping pipe fastening.

The heights of the bases on the pipe can be individually adjusted.

Choices of Basket: Wood rack variant white, chrome, Wire rack variant chrome, and Plastic rack variant

Wari Corner

The corner cabinet Wari corner is easily accessible due to its user-friendly movement when opened. Upon opening, the front baskets automatically swing away and thus leave free access to the back basket.

Thanks to the front connection with integrated 3D adjustment and central height alignment, the Wari corner can be fitted perfectly.

The integrated damping ensures quiet, gentle closing of the pull-out.

Choices of Basket: Basket variant Saphir, Basket variant Scalea, Basket variant Premea, Basket variant Opal, and Basket variant Classic.

(Basket variant Saphir & Basket variant Premea stock in Singapore)

“The bitterness of poor quality remains long after the sweetness of low price is forgotten”
