# GENERAL WARRANTY

## HOME APPLIANCES

### Terms and Conditions

This product is fully guaranteed against defective materials and manufacturing defaults including parts and services for a period of 24 months from the date of purchase.

1. The warranty provided by HÄFELE Singapore (Häfele) shall apply to manufacturing defects and covers for domestic/ household use only.
2. This warranty card must be duly completed and returned to us within 14 days from the date of purchase to effect. All fields of the warranty card must be correctly filled in. In otherwise, the warranty period will be counted from date of inventory issuance.
3. Warranty card is not transferred and not replaced in the event of loss.
4. Warranty is effective for appliances purchased from an authorized Häfele dealer operated in Singapore only.
5. End user shall only engage Häfele technicians or Häfele authorized service contractor to provide warranty related services.
6. The purchaser is required to present warranty card and original proof of purchase document when service is required. In otherwise, cost of labour and parts will be imposed.
7. Service charge will be imposed for a requested service call with no technical fault identified by Häfele technicians or Häfele authorized service contractor during warranty period.
8. Under the following circumstances, parts and labour will be chargeable even during the warranty period. The warranty DOES NOT extend to the followings:
  - The serial number of the appliance has been altered, tampered or removed.
  - The appliance has been tampered with, subject to misuse, negligence and damage while in transit.
  - The appliance has not been installed, maintained or operated in accordance with instructions given by manufacturers
  - The appliance has undergone, repaired, modified, or dismantled by any other person prior verification of approval by Häfele.
  - Defects are caused by abnormal voltage or in-coming power supply from a generator.
  - Defects are caused by fire, lightning, electrical disturbance, negligence, accidents and other natural disasters or deviation from recommended application and installation.
  - Defects are caused by household pests such as lizard, rat, cockroach, etc.
  - Defects are caused by chemical reaction, excessive heat, excessive dust, corrosive surroundings, such as cement factory, animal farm, etc.
  - Components parts which require replacement in the ordinary course of use are caused by normal wear and tear by reasons of their characteristic, including accessories. Including but not limited to light bulbs, fuses, glass oven doors, tempered glass, regulate gas and etc.
  - External appearance parts include cabinet and joints against damages, scratches and ageing.
9. Warranty will be void if the appliance is being operated without Häfele genuine or recommended manufacturer.
10. Häfele liability under this warranty is limited to repairing and/ or replacing defective products only. The warranty does not cover any losses and damages caused directly or indirectly by the products.
11. Häfele reserves the right to impose additional charges or may refuse to attend to any products installed locations which are inaccessible and / or hazardous to its service agents.
12. Decisions by Häfele on all questions pertaining to complaints as results of defects, either workmanship or material shall be conclusive.
13. Authorized person, agents, service centers by Häfele shall not change, modify or extend the terms of these warranties in any manner.
14. The purchases will have no claim under this warranty in respect of personal injury, damages to property or consequential damage.
15. Non-observance of clause 6 and 9, Häfele reserves the right to reject the warranty claim.

### Conditions of Warranty:

- a. Repair or replacement of parts or accessories shall be free of charges if customer meets following conditions:
  - The product still during in the warranty period.

## KITCHEN SINK (Granite or Stainless Sink)

Conditions of Warranty:

Häfele offers a 5 years warranty extension (from the date of purchase) for all manufacturing defects in material and workmanship under normal residential usage.

We will issue an equivalent replacement sink without charge, excluding transportation and any labor costs. We shall only accept to replace appliances provided that the product has been installed in accordance to installation instructions, used and cleaned as recommended and not damaged due to abuse, misuse or negligence. In the event of a warranty claim, the owner will be required to provide as proof of purchase and a sales receipt.

Manufacturing defects covered by this warranty are in the condition of (when customer receive and check):

Thermal cracking  
Inconsistent color  
Surface blemishes  
Bubbling

Warranty is not applicable under conditions:

Improper installation or modification of original product  
Incorrectly drilled holes  
Cuts and nicks  
Abuse or misuse (i.e. damage due to heavy objects dropped into the sink, hot pots exceeding 280°C placed into the sink)  
Scratches resulting from scrubbing with steel wool, abrasive pads or cleaners  
Improper application such as exposure to corrosive chemicals  
Rusted or eroded surface when in use  
Defects are not from manufacturing faults

This warranty does not allow recovery of any indirect, incidental, special or consequential damage in any way related to this product. This warranty is extended only to the original consumer purchaser of the product.

*Häfele reserves the right to inspect any sinks prior to replacement.*

*All failed or defective parts, accessories or products replaced according to this warranty article shall be the property of Häfele.*

In order to obtain service under warranty, a written notification must include the following information

Date of purchase and installation  
Proof of purchase and sales receipt  
Description of defect and faults  
Model code or name of products

Notes during installation and storage:

Sinks shall be set up in the final stage during construction  
Should kitchen sinks be set up during construction, there shall be measures to shield, cover to avoid damaging the product surface portion.  
Clean your sink after every use with hot water, a plain soapy detergent and a soft cloth. Common stains are removed immediately.  
Common stains caused by foods or liquid which are stained easily (tea, coffee, juice etc.), must be removed immediately by using very hot water and a cleaning product.

Difficult stains, such as ink, oil, or paint must be removed immediately by using a cloth dampened in denatured alcohol.

Abrasive cleaning powders, creams or dangerous chemical products must not be used.

When in use, there will be lime buildup, especially on the bottom of the sink, which will progressively increase in thickness. This layer of lime buildup is very porous and easily stained. By following a certain procedure, you can remove easily any buildup twice a week:

1. Cover the bottom of the sink with water and plain vinegar (or a specifically designed product fighting lime buildup), and let it soak for a few hours...
2. Rub strongly with the hard side of a sponge until the lime, dirt and any stains are removed.
3. Rinse thoroughly with water.
